Pasion's passion

While going green may be on the lips of everyone in every industry, it doesn't always inspire the sexiest image. Not so for Pasion Argentina. The first Argentine design company to base its practice on fair trade, Pasion Argentina is committed to producing environmentally sound and socially responsible goods. Designing, producing and selling bags, decorative objects, home accessories, furniture and gifts, Pasion works with high quality, local leather, suede and wood; integrating native textiles into its work to produce contemporary, exclusive products that preserve and honour local artisans and their way of life. *Available for the first time in Australia, you can find Pasion's bags at S2, 26 Angove St, North Perth. (08) 9227 1139.*
